

**ASTRON<sup>®</sup>**  
PATENTED BIOSTIMULANT

**FOLIAR**

*Patented Biostimulant*

**BENEFITS:**

**DRIVES ROOTS FOR INCREASED NUTRIENT UPTAKE**

**INCREASES CARBOHYDRATE RESERVES**

**INCREASES CELL DIVISION FOR STRESS TOLERANCE AND RECOVERY**

**WORKS SYNERGISTICALLY WITH PRIMO FOR REDUCED CLIPPING YIELDS AND STRONGER TURF**

# ASTRON<sup>®</sup>

ROOT DRIVER FOR GREATER STRESS MANAGEMENT

Field proven and university tested over the last 20 years, **Astron** is designed to sustain strength, health and stress resistance in turfgrass. **Astron** is a proprietary blend of secondary and micronutrients designed for use on highly managed turfgrass. **Astron** contains antioxidants, organic complexes and extracts of non-plant food source materials derived from natural fermentation processes.

## NUTRIENT ANALYSIS

|                     |        |
|---------------------|--------|
| Calcium (Ca) .....  | 2.00%  |
| Magnesium (Mg)..... | 0.50%  |
| Boron (B).....      | 0.06%  |
| Copper (Cu).....    | 0.15%  |
| Iron (Fe).....      | 1.30%  |
| Zinc (Zn).....      | 0.335% |

Derived from calcium gluconate, magnesium sulfate, boric acid, copper sulfate, ferrous sulfate, and zinc sulfate.

**Net Weight:** 9.81 lb/gal (1.176 kg/L)

## PROFESSIONAL USE GUIDELINES ④

### APPLICATION:

Apply with any equipment that delivers a fine even spray mist to the target area utilizing 02-04 tips for a total spray volume of 20-40 gpa (200-350 L/ha). Do not water in. Wait at least 2 hours to irrigate.

### RATE OF APPLICATION:

**Cool-Season Grass:** Apply at the rate of 1-3 fl oz / 1000 sq ft (5-10 L/ha) any time during the growing season. Regular applications on a 10-14 day schedule may help to improve the respiration rate of the grass during hot, humid weather. Strategic applications are useful to increase turf density without initiating excessive top growth.

**Warm-Season Grass:** Apply at the rate of 1-3 fl oz / 1000 sq ft (5-10 L/ha) any time during the growing season. Make 4-5 applications on a 7-10 day schedule in early fall before dormancy. Spring application should be made after dormancy break.

### COMPATIBILITY:

**Astron** is tank mix compatible with many systemic fungicides, insecticides and nutrient solutions. Do not mix with **Per "4" Max**. Jar test when in doubt. **Astron** contains very high solids content and therefore needs to be shaken intensely to ensure a homogeneous mixture. For best mixing results, remove tank strainer prior to product addition.
